

CSR Performance Ladder

How it works

The 3 pillars of the CSR Performance Ladder are: a management system, 31 themes, and stakeholder participation. Want to get certified? Check the links below for more info:

- Click [here](#) to see the CSR management system requirements for companies.
- Please contact one of our licensed CBs when you seek **certification**.
- Certification **costs** consist of audit costs (based on man-days) and yearly contribution fees.
- Other **frequently asked questions** can be found [here](#).

What it is. And for who it is.

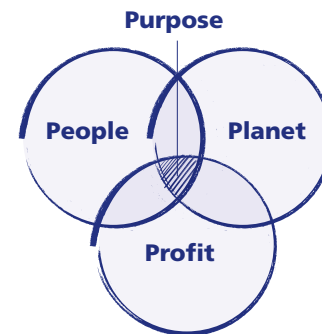

The CSR Performance Ladder is a **certification scheme** for Corporate Social Responsibility. It offers guidance to implement and work according to a CSR management system.

Companies and organisations from **every industry** can integrate the CSR Performance Ladder in their operations and seek certification. CSR company endeavour is made demonstrable and effective.

The CSR Performance Ladder is inspired by internationally accepted standards like ISO 26000.

Finding CSR complicated? Not with the CSR Performance Ladder!

More and more companies want to contribute to solving social issues. The CSR Performance Ladder provides the method to find the right balance between people, planet, profit and purpose.
